PROFESSIONAL SUMMARY

A passion for developing impactful web solutions is evident, coupled with a solid foundation in both front-end and back-end technologies. Expertise in modern web frameworks and a commitment to delivering seamless user experiences will contribute to achieving project goals. Eagerness to collaborate across teams and apply problem-solving skills in a dynamic environment aligns with the mission to create exceptional digital products.

WORK HISTORY

Junior Full-Stack Web Developer, October 2024 – Present

Vocation Digital, London

- Developed responsive web pages and components tailored to client specifications, ensuring a high-quality user experience.
- Developed and maintained both front-end and back-end components ensuring smooth integration between user interfaces and server-side logic and collaborated with design teams to deliver projects with efficiency and speed.
- Utilized a range of modern web technologies, including Liquid templates, web components, and development containers, as well as frameworks like Carbon and Bootstrap, to build dynamic and scalable solutions.
- Actively participated in development sessions to streamline processes and improve project aspects to enhance the final product.

Freelance Full-Stack Developer, November 2023 – April 2024

Freelance

- Delivered custom website components using HTML, CSS and WordPress, incorporating industry best practices for UI/UX design.
- Collaborated directly with clients to gather requirements, ensuring that the final product met their business needs and expectations.
- Managed multiple projects, ensuring timely delivery and high client satisfaction.

Restaurant Floor Manager, January 2021 – April 2024

Ottolenghi Ltd, London

- Utilized strong communication and problem-solving skills to maintain customer satisfaction and resolve issues promptly and professionally.
- Demonstrated leadership in stock management and team coordination, contributing to operational efficiency at a consistently high standard.

EDUCATION

Full-Stack Web Developer Program, April 2024 – September 2024

CareerFoundry, London

- Constructed a comprehensive portfolio website, demonstrating proficiency in HTML, CSS, and responsive design principles and web accessibility standards.
- Developed a movie database app using the MERN stack (MongoDB, Express.js, React, Node.js), focusing on building the front-end UI with React and managing backend APIs.
- Created a serverless web application to track local events, utilizing React and APIs while practicing test-driven development (TDD) for robust code quality.

Front-End Developer Professional Certificate, December 2022 – June 2023

Meta, London

- Gained hands-on experience with HTML, CSS, and JavaScript, applying these skills through practical coding exercises and exams.
- Developed a deeper understanding of UI/UX principles, version control (Git), and React, enhancing my ability to work on real-world development projects.
- Leveraged these skills to take on freelance development roles and build a solid foundation in front-end development.

TECHNICAL PROFICIENCIES

- **Languages:** HTML5, CSS3, JavaScript, Liquid, Node.js, SQL, RESTful APIs.
